Taproot

Free Membership Join Terms

Version 1
Effective November 23, 2026

Summary of changes: Explains what joining costs, who provides the benefits and how access works.

These terms apply between you and Taproot IO, LLC when you join a free membership on a creator's site. The creator's Member Terms describe the offer and your relationship with that creator. Read and accept those terms and these terms before joining.

Joining and access

Joining and remaining in this free membership costs you nothing. Joining does not enroll you in a paid product or authorize any charge. If a creator offers a separate paid membership, choosing it is a separate decision.

The creator provides the content or benefits described on the site. Taproot provides the membership tools, records the terms you accept and manages access on the creator's site. Contact the creator about the offer or its benefits. Contact Taproot support for help with Taproot sign-in or membership access.

Information used for membership

Taproot uses the information you provide to identify you, administer your membership and keep a record of the terms you accept. Taproot's Privacy Notice and Cookie Notice describe Taproot's practices. Check the site's Member Terms and privacy information for the creator's practices.

Changes to your membership

The creator may change the benefits under the creator's Member Terms or close the offer to new members. Access to member-only pages depends on your membership remaining active and the site remaining available with member-only pages enabled. Taproot's Terms of Service and Community Guidelines apply to your use of Taproot.
